

# Vehicle Scrappage Scheme

**The vehicle discount or 'scrappage' scheme is a voluntary scheme for motor dealers. If a dealer joins they'll give you £2,000 off a new vehicle if you let them scrap your old one.**

## Summary of the scheme:

- The scheme starts on 18 May 2009
- The scheme will be available until 28th February 2010, or until £400 million has been spent by the Government (approx. 400,000 eligible claimants), whichever comes first.
- Excludes Channel Islands & Isle of Man.

## The vehicle you are trading in must:

- be a car first registered in the United Kingdom (UK) on or before 29 February 2000
- be a small van weighing up to 3,500 kilograms (kg) first registered in the United Kingdom (UK) on or before 28 February 2002
- be registered with the Driver and Vehicle Licensing Agency (DVLA) in your name
- have been registered to you continuously for 12 calendar months before the order date of the new vehicle
- have a UK address on the registration certificate (V5C)
- have a current MOT test certificate before date of order for the new vehicle

## The new vehicle you want to buy must be:

- a car or small van weighing up to 3,500 kg
- first registered in the UK on or after mid May 2009
- declared new at first registration in the UK with no former keepers

## How to take advantage of the vehicle discount scheme:

Contact your local dealer to see if they have joined the vehicle discount scheme. They will check that your vehicle and the new vehicle you want to buy both meet the rules of the scheme. When the sale is agreed, the dealer will sort out the paperwork and arrange for your vehicle to be scrapped. The discount is deducted from the price you pay for the new vehicle and will be shown on your invoice.

For more information on financing a new vehicle, contact BHF Finance today.
